CONDITIONS :

THE FOLLOWING CONDITIONS OF PWD VIDE THE CE, WRD, CHENNAI REGION,CHEPAUK,CHENNAI-5.LETTERNO.DB/T5(3)/F-THANDALAM VILLAGE / 2021 / M / DATED:04.01.2022, ARE TO BE COMPLIED BY THE APPLICANT BEFORE ISSUING OF THE LAYOUT APPROVAL BY THE COMPETENT AUTHORITY (LOCAL BODY)

- The applicant's land should be filled with earth proper compaction to the level of (+)19.140m to protect the site from inundation during floods The process of earth filling and compaction should be done for a depth of (+) 2.40 to 2.45m depending upon the existing field levels in layers of not more than 0.30 metre depth to achieve required degree of compaction and the existing applicant and should be raised to a level of (+)19.140m and (i.e)0.43m above the sill level of Sluice No.4 of Chembarambakkam Tank as (+)18.710m
- The applicant should prepare the layout proposal by considering the suitable internal storm water drainage network of suitable size (peripheral & lateral) rainwater harvesting roads with road side drain and sewerage treatment and its disposal & garbages/debris and other solid waste management as per norms in existence within the applicants land according to the existing rules in force and should get proper approval from the competent authority without fail.
The sewage or any unhygienic drainage (treated or untreated) should not be let into the drain /channel /odai course at any cost and the debris and other materials should not be dumped into the drain surplus course obstructing free flow of water. The applicant should make drain networks at her own cost and the same is to be connected to the natural storm water drainage or channel / odai.
- The necessary set back distance should be provided as per the norms in existence and as per the rules in force of CMDA (Circular issued by the office of the Commissioner of Town & Country Planning Chennai-2 vide Roc No. 4367/2019 - BA2/ Dated :13. 03. 2019) especially on Southern side during development And there should not be any construction activities carried out in this set back areas
- The applicant should clearly demarcate the boundary of her and before commencement of any developmental activities especially on the S.No.347-South & 346-West side in the presence of Revenue and PWD/ WRD authorities. The applicant should also maintain the measurement of the channel on the Southern and Western sides without any encroachments and should be maintained as per Revenue records (FMB) If any damages occurred to the channel the same should be restored to its original condition at her own cost.
- The applicant should not carry out any other cross masonry structures across the channel before obtaining prior permission from WRD.
- If the applicant need to construct a permanent compound wall on the all round the boundary of the site, it should be executed only after clearly demarcating the boundary by the Revenue Department officials and WRD officials The Government land should not be encroached at any cost (i.e. channel in S.F.No.346 & 347)
- The WRD officers should be allowed to inspect the site at any time i.e. during execution and thereafter, if necessary Advance intimation should be given to the WRD officers concerned before commencement of work WRD is giving opinion only on inundation point of view and does not deliver any rights to the applicant to encroach the WRD Government Lands. The CMDA should issue completion certificate only after obtaining compliance certificate NOC from PWD/ WRD.
- The permission granted to the applicant should not be altered/ modified / changed to any others Based on the records submitted by the applicant the permission is granted. If any documents seem to be fake /manipulated / fabricated in future the above permission will be cancelled without any correspondence. Hence he applicant is solely responsible of genuinity of the documents submitted.
- The applicant should abide by the rules and regulation of the PWD /WRD from time to time. The applicant should also abide coups of law of both State & Central Government from time to time
- The applicant should get clearance certificate for her site from the Revenue department to make sure that the site is not an encroached property from the water body as well as confirming this proposed site boundaries.
- The applicant should not object at any time for the maintenance work / improvements work of the channel proposed to be carried out by WRD. The applicant should not dump the garbages debris in the channel, and avoid the sewage water into the channel etc. The applicant should give an undertaking in writing to the effect stating that the above proposal will not obstruct in case any maintenance improvement/development works as per Revenue records (FMB) which are proposed to be carried out by PWD / WRD in future periodically.
- The channel course in S.No.346- West & 347- South sides along the boundary of applicant's land should be completely de-silted and resectioned by constructing retaining wall on either sides as well as bed lining concrete of the drain as per the FM at the applicant's own cost up to this stretch The bed level of the above course should be ascertained and restored before commencing the development activity in the presence of the concerned WRD Executive Engineer Moreover, the width of entire field drain as per Revenue records (FMB) along & within the stretch of applicant's land should be maintained properly, without any change and without encroachments.
- The Government surplus course stretch abutting the applicant boundary in S.No.346 West & 347 South sides should be marked as per FMB and monitored and maintained by the applicant at her own cost. The width of the course should be maintained without encroachment as per Revenue records and the hydraulic parameters of the field drain should be maintained. The applicant should make necessary periodical arrangements for free flow of water through the existing drain to the downside area within the proposed layout site. Also, the applicant should desilt the drain periodically and remove the obstruction then and there without any hindrance for tree flow of water at her own cost within the proposed land even after the completion of project also.
- WRD is giving opinion only in connection with the inundation aspect and does not deliver any rights to the applicant to encroach the WRD Government Lands. The NOC for her site from the WRD is purely issued on the basis of inundation point of view.

The owner of the document received from the applicant in respect to the ownership is purely of applicant's responsibility and it is only for reference purpose to this department. The legal validity of this document should be verified by the Development / Revenue authorities. The specific remarks on inundation are purely issued on technical grounds in respect to the physical location of land

Failing to comply with any of the above conditions, PWD/WRD reserves rights to withdraw the Technical opinion with NOC on Inundation point of view for the above proposed site and in event, the applicant shall not be eligible for any compensation whatsoever and as well as legal entity
